CREIGHTON PUBLIC SCHOOLS

One of our most admired assets, Creighton Community Schools value excellence in education. As a Blue Ribbon institution with a history of distinction and achievement, Creighton proved its reputation with the release of the State of the Schools Report in 2012. Our institution garnered top honors in the State in both reading and math and finished with top-ten finishes in nine of 15 categories. Congratulations to Creighton Community School officials, staff, and students on your great achievements!

St. Ludger Catholic School

St. Ludger Elementary is different than most schools. It feels more like a family than an academic institution. Yes, we study for tests, but our goal as a school is much larger than a State standard. Our kids are taught that success not only comes from achieving academically, but more importantly, success has to do with our relationship with God and with others. We have a different set of standards, and his name is Jesus Christ.

Our mission is to assist families in building a foundation of Christian faith, academic excellence, and personal integrity that enables students to use their gifts to serve God and neighbor throughout their lives
